## KEY POINTS

- Believers have a mission as reconcilers to carry the Good News with love to a lost world and to be eager to maintain unity with others.
- Satan's mission is to take us off mission.
- Satan uses tactics like distraction, discouragement, and division.
- Believers who are trying to advance the Gospel are not affective when they are outwitted by Satan, holding on to unforgiveness or resentment.
- We must be watchful, alert, and aware of our adversary's deises and schemes.
- We are to remember that our fight is not against flesh and blood.
- We must keep short accounts and be quick to forgive.
- God can use Satan's deises to help refine us in the process of reconciliation.
- Grace is our secret weapon to offer to those who offend, thereby canceling the record just as Christ has graced us with forgiveness.
